This evening...

Please make the most of the opportunity you have this evening, to talk to teachers and students about the Sixth Form, and about the courses that are on offer. You might want to ask...

- How are the courses taught?
- What content will I learn on course?
- How is the course examined, both throughout my study and at the end of the course?
- Does the course suit my strengths?
- Am I open to learning new things?
- How might subjects support my future plans?

**We look forward to working
with you through the
application process, and in
September 2025 when you
start Year 12!**
