

Chemistry A Level

General Science Reading	
Why Chemical Reactions Happen	<i>James Keeler/Peter Wothers</i>
The Magick of Matter	<i>Felix Flicker</i>
How the World Really Works	<i>Vaclav Smil</i>
The Party's Over	<i>Richard Heinberg</i>
How it Ends	<i>Chris Impey</i>
Introducing Quantum Theory: A Graphic Guide	<i>J.P. McEvoy/Oscar Zarate</i>
<p>As part of your reading, you could consider exploring the periodicals New Scientist, Nature, Chemistry World and Education in Chemistry.</p> <p>For websites, look at www.ted.com, www.thenakedscientists.com, www.isaacchemistry.org; you could also search 'chemistry websites' as there are several on different areas of chemistry and from a number of UK and US universities.</p> <p>You may also wish to read other sites to do with biology and material sciences.</p>	

... and just for fun!	
Vulture Capitalism	<i>Grace Blakeley</i>
End Times	<i>Peter Turchin</i>
The Running Hare	<i>John Lewis-Stempel</i>
Sapiens	<i>Yuval Noah Harari</i>
