

Logging onto Unifrog

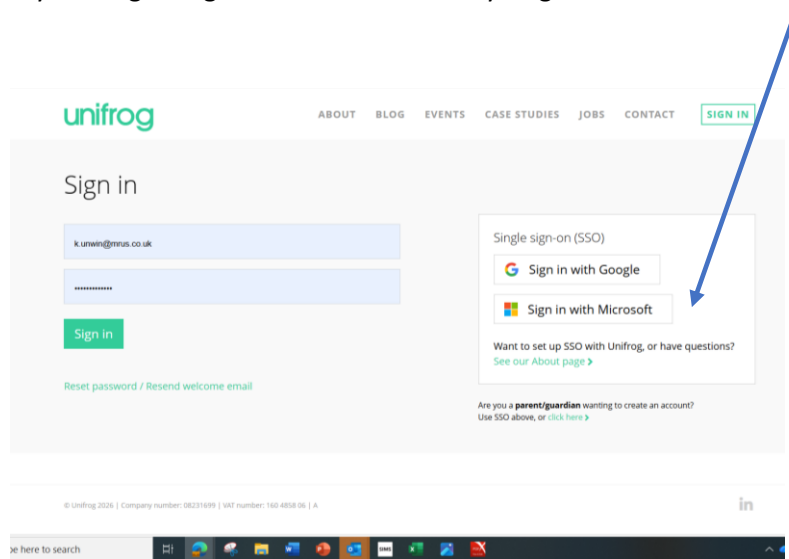

Students will need their school email which is something like this (First initial Surname)

21Surname@mrus.co.uk

Go to Unifrog

Put in school email as their user name

Try clicking on right hand button that says login with Microsoft.

(Not sure if this will work at home)

If not; click **forgot password** then Unifrog will send a reset email to their school email.

Once you have got onto Unifrog look for the grey placement box in the centre of all the coloured boxes. Then follow the instructions. You will need employer's email plus address, name and phone number. It is quite straight forward.
